APRESENTAÇÃO

A Secretaria de Economia e Finanças tem a satisfação de apresentar o Volume XXVIII do "Finanças do Brasil", dando prosseguimento à sua tradicional missão de coletar e divulgar os dados financeiros das três esferas de Governo, União, Estados e Municípios.

A Receita é discriminada por categorias econômicas e a Despesa por categorias econômicas e por funções.

Os dados da União têm por origem os Balanços elaborados pela Secretaria Especial de Controle Interno (SECIN), da Secretaria de Planejamento da Presidência da República.

Os dados estaduais são obtidos através dos Balanços elaborados pelas Secretarias de Fazenda ou Finanças dos Estados e do Distrito Federal.

Os dados relativos aos Municípios das Capitais também têm por origem os Balanços elaborados pelas Secretarias de Finanças Municipais.

A obtenção de dados dos demais Municípios representa um esforço realizado pela Secretaria de Economia e Finanças no sentido de possibilitar conhecer a vida financeira de todas as municipalidades brasileiras. Para a consecução desse objetivo é montado um sistema que reúne as Delegacias do Ministério da Fazenda em cada Estado, os Tribunais de Contas Estaduais e as próprias Prefeituras, numa integração orientada pela Coordenadoria de Análise Econômico-Financeira dos Estados e Municípios, da SEF.

O fluxo inicia-se com a expedição das "Sínteses de Balanço", formulários que as Delegacias do Ministério da Fazenda distribuem aos Municípios de seu Estado, as quais, após serem preenchidas, retornam à Secretaria de Economia e Finanças para serem aproveitadas no trabalho estatístico de análise e consolidação dos dados nelas contidos.

Os Tribunais de Contas Estaduais participam da sistemática ao facilitarem o encaminhamento das Sínteses Municipais.

A exemplo do que vem sendo feito desde o exercício de 1981, esta edição apresenta dados financeiros de todos os Municípios brasileiros, com exceção apenas daqueles que, por um ou outro motivo, não prestaram essa informação.

A Secretaria de Economia e Finanças

FINANÇAS DO BRASIL
VOLUME XXVIII
1983

NOTAS EXPLICATIVAS

1 – Os dados financeiros da União, Estados e Distrito Federal, Municípios das Capitais e demais Municípios são globalizados no item Brasil. Os usuários desses dados devem ficar atentos para que, em sua utilização, evitem os erros de "dupla contagem", como, por exemplo, na rubrica "Receita Total", em virtude da inclusão das "Transferências".

2 – Sinais convencionais adotados:

... Dado desconhecido;

– Dado inexistente;

O Dado que não atingiu a unidade adotada na tabela.

3 – O Decreto-lei nº 1875, de 15 de julho de 1981, facultou aos Municípios com população inferior a cinqüenta mil habitantes a simplificação de sua proposta orçamentária – eliminando-se classificações que não as de Receita por fontes e de Despesa a nível de categorias econômicas. Por essa razão, as consolidações referentes aos desdobramentos eliminados incluem apenas os valores de Municípios com cinqüenta mil ou mais habitantes.

4 – Pela razão exposta na nota anterior, as informações contidas no título "Principais Itens da Execução Orçamentária", quando o Município tem menos de cinqüenta mil habitantes, apresentam lacunas, a não ser no caso daqueles que encaminharam os dados com os desdobramentos exigidos antes do Decreto-lei.

5 – Os dados financeiros da União vêm desfalcados daqueles referentes à Despesa por categorias econômicas, por unidade federativa, em virtude de sua omissão no Balanço da União, fato que vem ocorrendo desde o Balanço do exercício de 1980.

6 – Os dados financeiros da União de 1983 também vêm desfalcados das Despesas por função, por unidade federativa, por não terem sido publicados no Balanço da União desse ano.

7 – Uma das características do atual acompanhamento dos dados financeiros municipais é a omissão de certas rubricas pelos Municípios, apesar do empenho realizado em apurá-las. Um exemplo é o Município informar o total de sua Receita Tributária, mas não a dos impostos – IPTU e ISS – os quais ficam em branco e aparecem com asteriscos nesta publicação. Nesse caso poderá ser observado que o total da Receita Tributária não baterá com o total dos itens que a constituem.
